

R-290 Refrigerated Slim Drop-In Wells

Models: CWBP-S1, -S2, -S3, -S4

Hatco's R-290 Refrigerated Slim Drop-In Well is a full-size unit that uses an environmentally friendly refrigerant to blanket your pre-chilled food product to retain optimum freshness and taste in one efficient and easy operation – but placed lengthwise. This provides customers with a complete cold well within easy reach, regardless of the sneeze guards.

Standard features

- NSF 7 Component approved cold wall construction utilizes a refrigerant that keeps food product cold without drying it out

The unique angled inside wall design provides easy access and clear views. The greater surface area of the angled wall and the placement of the coils allow cold air to more effectively blanket your food product.

- Condenser utilizes environmentally friendly R-290 refrigerant
- Auto-defrost is activated through an advanced electronic controller programmed at customer location
- Optimal insulation on sides and bottom ensure better cold retention
- Environmentally friendly insulation used throughout
- 1" brass drain simplifies cleaning
